Symbl.ai

December 17, 2021

Name and personal information

Name	Vinod Vaman Bhat
Email	vinodvamanbhat@gmail.com
GitHub Username	VVB2
Phone	8806048503
Address	E/149 M.G.M Nagar CO-OH HSG Virar(W) - 401303
College Name	Xavier Institute of Engineering - Mahim
Degree	Under Graduate
Expected Graduation Date	June 2023
How many hours will you work per week?	35 Hours
Other Commitments: (e.g. exams, projects, jobs, theses.)	College Projects and Exams

What excites me to work at Symbl.ai?

The similar tech stack used in the Symbl.ai ecosystem. Would like to expand my domain in the Artificial Intelligence technology and get some hands-on experience with the same.

The friendly behavior that I have noticed in the discord chats and during the ama sessions. Excited to work and learn something new from you.

Symbi-tracker-management-ui

Proposal Description:

It is a CRUD web application to check the occurrence of certain keywords or phrases in a conversation, so you can identify emerging trends and gauge the nature of interactions. The user can create, update, delete and view the Trackers through the website.

The new feature that needs or rather should be added is the support for bulk trackers instead of creating trackers one by one using a raw json file. The UI and json can also have a new key-value pair for changing the border color of the card so that user can create categories like **Important Tracker – with red border color, just keep an eye on this Tracker – with yellow border color**, or some other custom tracker category that the user can create which helps with better user experience and productivity of the user.

Timeline [Plan of action / Milestones]:

Week #	Goal	End-result
Week 1	Community bonding, going through documentations and/or codebase.	Getting started with the project.
Week 2	Discussion about the overall design and UX of the website.	Better UI design.
Week 3	Adding the above-mentioned categories system.	Category system.
Week 4	Starting with the bulk insert using json.	Bulk insert.
Week 5	Testing and finalizing the bulk insert system.	Done with bulk insert.
Week 6	Testing if the application works as intended after the new features are added.	Testing application.
Week 7	Working on another project.	New project.
Week 8	Working on another project.	New project.

Week #	Goal	End-result
Week 9	Working on another project.	New project.
Week 10	Working on another project.	New project.
Week 11	Working on another project.	New project.
Week 12	Working on another project.	New project.

Why are you the best person to execute this proposal?

- I have created many projects using ReactJs in the past and have a hands-on experience with using Material UI as a CSS framework. The project showcasing this knowledge is this: [VVB2/mini_project](#).
- I have created many web applications using MERN, Flask and have some knowledge about Docker and Kubernetes which will help towards CI/CD of this project. I also have knowledge about JavaFX which will be helpful if in future this project be created as a software.

Which relevant courses have you attended at the University? How was your performance?

I believe in practical knowledge rather than theoretical one. I like to get my hands dirty so I have rather shown interest in the technical knowledge rather than the theory.

I have taken Information Technology as my Bachelor of Engineering course, have participated in various workshops like Java Workshop, DevOps Workshop and Machine learning Workshop.

According to me I have done pretty good in all the workshop as well as the course that I have undertaken.

Any Other Relevant Information:

Certifications:

Java Workshop (06/2020 - 06/2020)

DevOps Workshop (04/2021 - 04/2021)

Machine Learning Workshop (06/2021 - 06/2021)

Skills:

Proficient in MERN, Python, Flask, Nginx

Some knowledge about Docker, Kubernetes and AWS

Make beautiful documentation.

Awards:

Winners of DSO badminton competitions.

DSO cricket winners.

Client Testimonials:

He executed every task at hand with an absolute sincerity and dedication.

He was highly accomplished at the art of communication and displayed a very polite, yet impressive behavior throughout the Internship Period.

He was actively & diligently involved in the project and tasks assigned to him. He handled major responsibilities of Project and during the period of his internship with us he was found punctual, hardworking and inquisitive.

We wish him all the best in all his future endeavors and are sure he will be an asset to any organization he works for
